

BLACKHAWK XP140 ENGINE+ UPGRADE

FOR CESSNA CARAVAN

SIX PERFORMANCE BENEFITS

The Blackhawk XP140 Engine+ Upgrade for your Caravan or Grand Caravan improves performance, increases reliability, raises your safety margin, and provides a significant return on investment over stock engines. Check the facts and start saving today with a Blackhawk engine upgrade.

LEARN MORE AT [BLACKHAWK.AERO](https://blackhawk.aero)

01

FLY AT 195+ KTAS ON A STANDARD DAY

That's an average of almost 20 ktas faster than with stock engines.

02

28% INCREASE IN AVAILABLE HORSEPOWER

More power at cruise altitude (1,800 RPM at 28,000 feet ASL).

03

ACCESS TO MORE AIRPORTS

Get in and out of more airports, especially on hot days and in high density altitude conditions.

04

37% INCREASED CLIMB RATE

More chances to deliver more cargo, transport more people, achieve more skydive trips and make more revenue. And you'll have the flexibility to power through and above inclement weather.

05

TWO WEEK INSTALL

Retain your existing cowling engine mount and exhaust system. Be back in the air in less time than a standard overhaul and with a new engine.

06

IMPROVED SAFETY

Enjoy added peace of mind with an increased single-engine service ceiling.
