

XP67P ENGINE+ UPGRADE EXCLUSIVELY FROM BLACKHAWK

ENHANCE YOUR PC-12 WITH POWER AND PERFORMANCE

INVESTMENT & VALUE

The XP67P Engine+ Upgrade delivers cost savings, helping you to do more with less.

- Lower operating costs than stock engines for strong ROI
- Pratt & Whitney core engine credits up to \$95 per hour for every hour remaining to the factory TBO
- Blackhawk upgrades offer the strongest resale value of any engine upgrade on the market
- 3,500 Hour TBO with escalation available for fleet operators
- Faster cruise speeds and climb save time and fuel

READY FOR MORE POWER?

You'll get a lot more horsepower with a brand-new PT6A-67P engine. But it's what you do with that power that makes all the difference.

- Better Safety Margins
- Improved Climb
- Fly Faster

Your PC-12 is better with Blackhawk.

UPGRADE BENEFITS

25%

Increased
Climb Rate

3,500 hrs¹

P&WC Enhanced
Engine Warranty

7 minutes

Reduced Time
to Climb

FL230

Full Torque
to Higher Altitude

¹P&WC Enhanced New-Engine Warranty 2,500 hours/5 years with prorated coverage to the 3,500 hour TBO

MORE POWER FOR CLIMB AND CRUISE

REDUCED TIME TO CLIMB

FAQs

Q. Won't an upgrade cost more than an overhaul?

A. Yes, you'll spend more on an upgrade than an overhaul, but you'll have so much more to show for it, too: increased earning ability, better resale value, enhanced safety, reduced operating costs and a better flying experience. All of which add up to a strong ROI.

Q. But won't I burn more fuel?

A. Yes, the fuel burn is greater at equal altitude. However, taking advantage of the increased climb performance and higher cruise speeds significantly narrows or eliminates the increase in fuel consumption. Also, utilizing the increased climb and cruise performance will reduce block times and deliver a significant reduction in overall operating costs. Typically, any increase in fuel cost will be offset by a larger reduction in direct operating costs. We've done the math, it pays to fly faster!

Q. If I upgrade, does it make sense to wait until my next overhaul?

A. Why wait to start enjoying the many benefits of an upgrade? Save money on every mission you fly, increase the capability of your aircraft, and take advantage of generous core credits for time remaining. Over half of Blackhawk's customers upgrade with more than 500 hours remaining.

Q. How does an upgrade compare to buying a newer aircraft?

A. Blackhawk offers transformative performance without the risks of buying new: Will you be able to sell your aircraft for the value you expect? Will there be unexpected costs to acquire your new aircraft? Will there be unexpected issues not uncovered by the pre-buy? Upgrading with Blackhawk eliminates the uncertainty and transactional costs of buying another aircraft while transforming the performance and utility of the aircraft you know best.

WHAT'S INCLUDED

The XP67P Engine+ Upgrade replaces the existing engine and avionics with:

Engine One Factory-New Pratt & Whitney Canada (P&WC) PT6A-67P Engine (Exchange)

Avionics Garmin Digital Engine Information System (EIS)

Warranty P&WC Enhanced New Engine Warranty 2,500 Hours/5 Years with Prorated Coverage to the 3,500-Hour TBO

Installation Kit Hardware and Hoses

STC Papers Globally-certified STC paperwork and Instructions for Continued Airworthiness

Manual Flight Manual Supplement with Full Performance Charts

Logbook P&WC Engine Logbook and Blackhawk Logbook Case

Cycle Book Blackhawk Cycle Book and Aircraft Decals

Training P&WC PT6 Line Maintenance Entitlement Training

Subscription Two-Year Subscription for Cloud-based P&WC Engine Maintenance/Parts Manuals

Support Blackhawk Lifetime Customer Support Guarantee
