LJ-1422 presents a striking ramp presence with its clean lines and timeless design. Finished in a crisp white base accented by bold striping, this aircraft blends classic sophistication with modern appeal. The twin-engine turboprop configuration delivers both power and efficiency, while the polished propellers and sleek profile emphasize performance and reliability.

Step inside LJ-1422 and experience a cabin designed for both comfort and functionality. The spacious seating arrangement features up to eight plush, leather chairs wrapped in soft beige upholstery, creating a bright and inviting atmosphere. Rich wood accents complement the cabin design, highlighting the executive feel, while large round windows flood the space with natural light.

For added versatility, each side of the cabin is equipped with fold out executive tables, perfect for in-flight dining, work, or collaboration. The cabin is thoughtfully designed to balance productivity and relaxation, making it ideal for both business and leisure travelers.
