

XP140 ENGINE+ UPGRADE FOR THE CARAVAN 208B

AVAILABLE ONLY FROM BLACKHAWK

MULTIPLY YOUR POWER AND REVENUE

Feel the power of your Caravan with a Blackhawk XP140 Engine+ Upgrade.

With a 28% increase in available horsepower, a brand-new PT6A-140 engine is the most cost-effective solution for Caravan 208B operators who seek improved performance, increased profitability, and a better flying experience.

The upgrade replaces your tired PT6A-114/114A 675 SHP engines with a brand-new PT6A-140 867 SHP powerplant for like-new levels of performance and load carrying capabilities – all while retaining your existing cowling, engine mount, exhaust system, and maintaining the same pilot training and operating characteristics. Blackhawk makes it easy to upgrade with a quick two-week, ultra-cost-effective installation that delivers better-than-new power and performance.

ADVANTAGES

Performance

- 28% More horsepower
- 22% Shorter takeoff distance
- 14% Less ground roll (feet)
- 39% Increased climb rate
- 20% Improved climb at 8,000ft
- 192 Maximum cruise speed (ktas)
- 15% Faster max cruise at 12,000ft

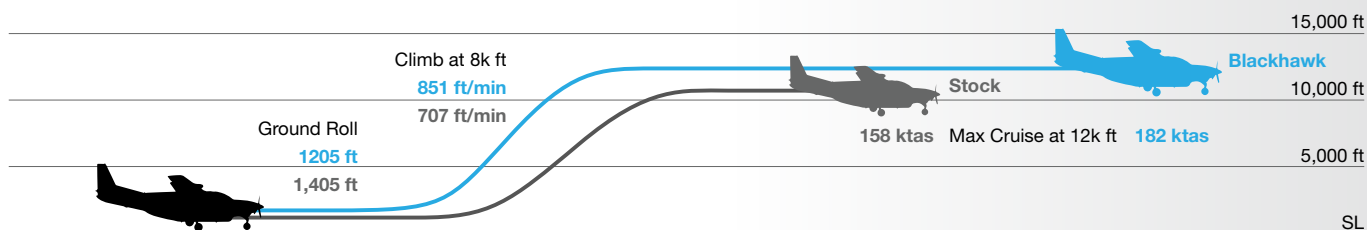

Value

- Strongest resale value of any engine upgrade on the market
- Increased revenue generation
- Competitive/additional core engine credit for time remaining to TBO
- Lowered airframe maintenance costs due to reduced block times

Safety

- Better safety margin
- Access more airports
- Base TBO increased from 3,600 to 4,000 hours and eligible for escalation
- Hot section inspection interval increased from 1,800 to 2,000 hours
- Latest technology with all mandatory and optional service bulletins included
